## Why Choose Us

Dr Elaine Haworth has been sole principal of Willaston Dental Care since opening the practice in 2000. Starting as a single practitioner dental centre, the practice has grown to meet the needs of the local area and now provides care for patients from Chester, Ellesmere Port, Wirral and Manchester, and even has patients who fly home from Europe and Canada for their dental care.

Prevention is at the heart of everything they do at Willaston Dental Care. From hygienists who can improve and maintain the condition of your gums, to extensive dental work, improving the appearance and life span of your teeth. Elaine invests in training and the latest dental techniques to ensure the best of care is offered to all her patients.

With a personal approach, Elaine and her friendly and enthusiastic dental team take the time to understand what you wish to achieve, and tailor the treatment to suit your individual circumstances.

## About Elaine:

Dr Elaine Haworth qualified from Birmingham Dental School in 1996 and started her career in West Bromwich before meeting her husband and moving to Chester.

Working as an associate in a busy NHS practice on the Wirral, she gained valuable experience in excellent patient care and business expertise throughout her years in general practice before opening Willaston Dental Care.

Elaine, who has been an Invisalign provider since 2005, is a member of the British Dental Association, the British Endodontic Society, the British Dental Bleaching Society and the British Academy of Cosmetic Dentistry. She is an accredited Enlighten and Mini Smile Makeover Practitioner as well as being a Denplan registered dentist. Her interests within general practice are wide and varied and she enjoys gadgets and learning new techniques, especially within cosmetic dentistry.

With a holistic, whole person approach to dental care, she enjoys getting to know her patients and outside dentistry Elaine has 2 boys, enjoys reading, Harry Potter Disney and all things technical!
